Summary

Motivated Front-End Developer with a passion for creating elegant and responsive user interfaces. Proficient in HTML, CSS, and JavaScript, adept at optimizing website performance and ensuring compatibility across various browsers and devices. Looking to leverage my expertise in front-end development to contribute to a dynamic and creative team.

Skills

Languages: HTML, CSS (SCSS), JavaScript (ES5, ES6).

Frameworks and Libraries: Bootstrap, TailwindCSS, React, GULP, jQuery, WOW.js, Swiper.js, Slick.js.

Tools: Git and Github, Visual Studio Code, Figma.

Work experience

Front-End Developer

Apr 2023 – current

LiddWEB – Rocklin, CA

- Develop responsive layouts for corporate websites and landing pages using HTML, CSS and JavaScript.
- Improve and finalize existing projects.
- Coordinate with project manager to confirm requirements and propose new ideas for efficient coding.
- Provide continued maintenance and fixing bugs.

Technical Projects

[MAGMACREATIVE](#) / [Github](#) / [Live](#) – Corporate Website

- Ensured adaptability across various devices and browsers for every web page of the website.
- Added smooth animations with transitions using WOW.js. library.
- Performed Three.js animation on some web pages of the website.
- Created custom video player using plain JavaScript.
- Implemented various sliders and carousels using Slick.js library.
- Optimized pages for the maximum loading speed under 3 seconds.

[SKAUNA](#) / [Github](#) / [Live](#) – Landing Page

- Ensured adaptability across various devices and browsers for every web page of the website.
- Utilized Slick.js library to implement sliders and carousels.
- Achieved a website loading time of 2–3 seconds.
